How to Reset Your GoDaddy Password

1. Log in to your O365 GoDaddy account: https://sso.godaddy.com/?app=o365&realm=pass&marketid=en-US

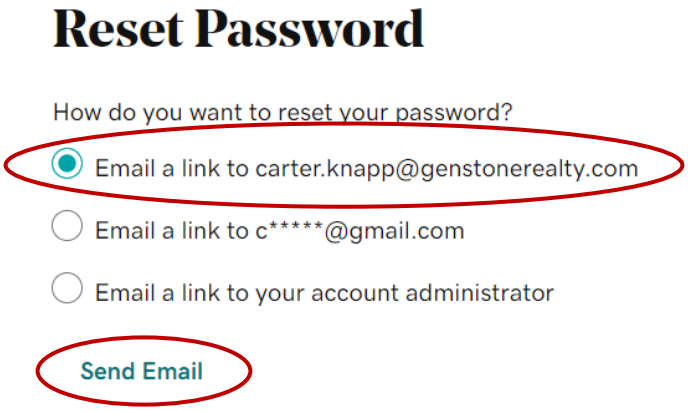

2. Select “Need to find your password?”

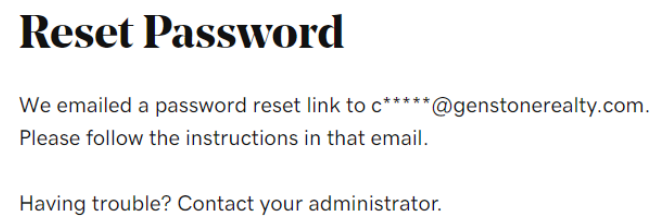

3. When “Reset Password” displays, enter your @genstonerealty.com email address and “Continue”

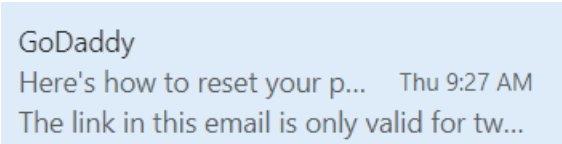

4. Select “Email a link to xxx.xxx@genstonerealty.com” and “Send Email”

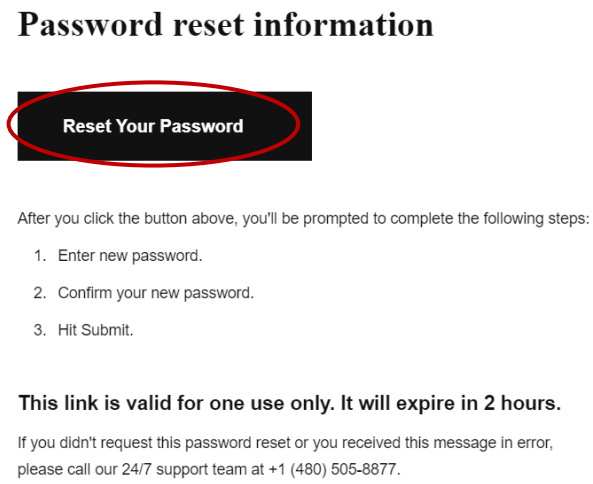

5. View the confirmation notice. Since your @genstonerealty.com email is already forwarded to your personal email, you will find the email in that account***. If not seen after a minute or two, check your spam folder since it may be directed there.***

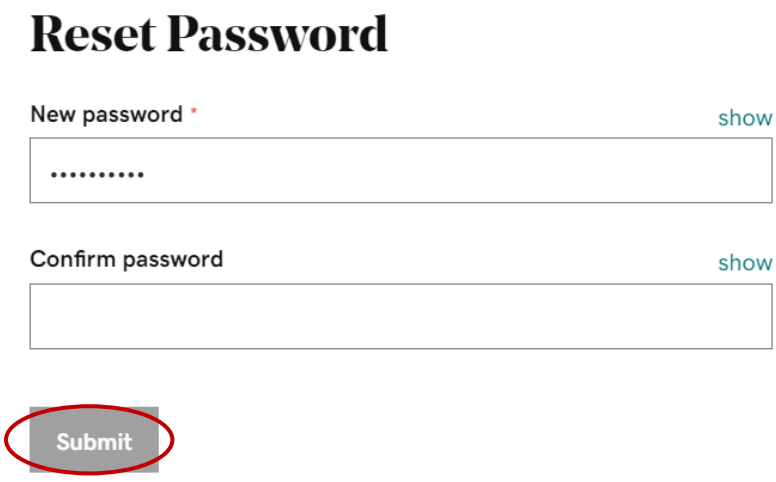

6. Open the email from GoDaddy in your personal email inbox (or spam folder)

7. Click “Reset Your Password”

8. Determine your new secure password, enter it, confirm it, and Submit

9. Return to the GoDaddy sign-in, enter your @genstonerealty.com email as username, and your newly reset password. Select “Sign In” to have this email account with your own secure password.
